Good Coffee (simply delicious) at Mac's. Try it, and you will drink nothing else this warm weather.

DEATH OF REV. J. C. MARTIN

The Beloved Pastor of Queen Street Church Passes Away.

HIS FAMILY WAS PRESENT.

Together With His Presiding Elder and a Brother Minister—His Death Not Unexpected—The Funeral to Be Held on Wednesday and Will Be Largely Attended.

Surrounded by his entire family, Rev. J. C. Martin, the much beloved pastor of Queen Street M. E. Church, died last night at 9:30 o'clock at his home, No. 210 Chapel street, after an illness of about six months. Besides his family present were Rev. James P. Garland, D. D., presiding elder of this district, and Rev. J. B. Merritt, chaplain of the Seamen's Bethel. The end was calm and peaceful, Mr. Martin having lain unconscious for several days. The deceased was born in this city on January 17th, 1836. His parents being Alexander and Parnella Martin. He was educated at the school of the late Wm. R. Galt in this city, and when he became of age engaged in the drug business. In 1856 he was converted and soon after began his studies for the ministry, which he entered in 1859, joining the Virginia conference. His first appointment was to the Hertford circuit in North Carolina. In years gone by he had charge of James street and later Cumberland Street Churches.

He leaves a wife and six children—three sons and three daughters, all of whom were with him when he died. In "Sketches of the Virginia Conference," Rev. John J. Lafferty, the brilliant editor, pays this high compliment to the deceased:

"So pure, consecrated, unselfish has been his life that no word of detraction is ever spoken of him, and not even a suspicion of unworthiness attaches to him. There is no more unostentatious man in the church, and, perhaps, few make so little pretension, possess so much real merit. His ministry has been directly instrumental in the conversion of 2,000 souls. He never loses a friend; we sincerely doubt if he ever made an enemy."

His funeral will take place from the church of which he was the pastor, on Wednesday and the services will be participated in by all the Methodist ministers in this section.

The family has the sympathy of the entire community.

EXPORTS OF IRON.

With Free Ore and Coal We Could Conquer Markets and Prices.

During the first half of the present year \$31,000,000 worth of iron has been shipped from this country to England. Yet there has been assiduously cultivated an idea that this country needed protection of one form or another from English competition.

The truth is, that this country, with fair opportunities, can be made the manufacturing center of the world. With a tariff tax of 40 cents a ton on ore and the same amount on coal we can now enter the field against England in her own territory. Released from these unnatural burdens we could control all the markets and prices.

Yet in the face of these conditions there are those who pretend to want the McKinley law restored. That measure was responsible for the distress that has prevailed during the last two years. It cut off the revenues and increased the taxes at the same time, and closed every industrial establishment in the country that wasn't protected by some sort of a patent.—Kansas City Times.

Still Baying at the Moon.

A calamity organ in Cincinnati, The Commercial, says: "Mr. Cleveland thought nothing of giving a bounty of \$10,000,000 to English money lenders or of practically destroying American industries for the benefit of English manufacturers." It would not be easy for a partisan expert in misrepresentation to condense more falsehood in a few words, but the above specimen is considerably belated. It is an anachronism—an echo of the dying calamity howls of last year. But some of the organs are keeping up the howls from mere force of habit, as some dogs bay the moon when it is not visible in the sky.—Philadelphia Record.

Tariff "Tinkered" to Good Purpose.

According to the Cotton and Wool Reporter there were in operation on June 1 last in the woolen mills of the United States 8,456 sets of cards for wools and worsteds, 77,100 looms working in woolsens and worsteds and 64,250 knitting machines. In May, 1892, there were 7,784 sets of cards, 71,000 looms and worsted looms and 43,601 knitting machines. These figures are referred to Mr. McKinley as evidence of the demoralizing effect of tinkering his tariff.—New York World.

Special Watch Sale.

Having come in possession of a lot of gold watches at specially low prices, Messrs. Greenwood & Bro. are offering them at unusually low rates for \$18, you get a watch surely worth \$25 as long as the lot lasts. They are going off well, warranted genuine American movements and solid gold cases. Watches repaired by best skill and satisfaction guaranteed by Greenwood.

"Newest Discovery"—Ext. teeth; no pain. N. Y. D. Rooms, 162 Main.

Take a look at our green and brown Scotch mixtures, correct for fall and winter wear. NICHOLS & WALLACE, 169 Main street.

Children Cry for

THE BUSINESS OUTLOOK.

Results of the Wise Policy of the Democratic Party Apparent.

"The conviction is gaining ground throughout the iron trade," says The Iron Age of New York, the official organ of the American Iron and Steel association, "that the present high level of prices is not only going to hold its own, but that even better figures are bound to follow." This is a complete and comprehensive answer to the calamity howlers who are trying to cast doubt on the permanency of the business improvement.

An interesting feature in the industrial situation is the fact that the railroads have become active buyers. The Iron Age adds, "It is clear that rolling stock is being contracted for more freely, and it may be noted that some pretty fair orders for locomotives for South America have been given out." So far as the domestic orders for rolling stock is concerned it may be assumed that it is the result of preparations for moving the crops and indicate that the apprehensions of a car famine may be dismissed.

The fact is that a more satisfactory business situation could hardly be imagined than that which now exists. The revenues are increasing, the treasury condition improving and public confidence is returning. These facts can have no other result than an enduring business activity, and hopes of prosperity held out in early summer will be more than fulfilled before the snow flies. This is the result of the wise policy of the Democratic party, and by the time the next presidential campaign is on it will be universally admitted.

INCREASE IN VALUES.

What the Public Has Gained by the Change in Economic Policy.

Since the first of January the value of ten railroad properties have advanced \$41,970,000, says the Kansas City Times. That is, the difference between the current price of the stocks in those roads now, as compared with six months ago, shows that vast difference. In all the corporation property in the country the advance during the time would be beyond calculation. Other property is equally improved.

This is the gain to the public because of the change in economic policy. The McKinley law taxed the people without yielding revenue and prostrated industry in the name of protection. Its evil influence became apparent almost as soon as it went into operation. The repeal of that law was practically the cancellation of a mortgage on the industries of the country. The increase in values is the result.

In the face of these facts it is surprising that there are idiots who advocate a restoration of the ruinous policy. In other words, there are men who pretend to think that the country would be benefited by the enactment of the McKinley law, or something like it. But they are insincere in this. They might be individually benefited in one way or another, but it is certain that no community is enriched by being robbed.

SITUATION IN ILLINOIS.

The Party of Lincoln Has Become the Tool of Trusts and Corporations.

Governor Altgeld has plainly shown to the people of Illinois that the Republican party of that state is disqualified from legislating properly in the interest of the general welfare, says the St. Louis Post-Dispatch. If more evidence were needed, the party itself has supplied it in the results of the last regular and extra sessions of the legislature. The governor has said that from first to last the Republican majority in both houses was dominated by corporate and other selfish influences, and it is a matter of public notoriety that corruption stalked through the deliberations of that body. The Republican party, in the language of the governor, is no longer the party of Lincoln, but is an organization devoted to the interests of trusts and corporations and definitely neglectful of the welfare of the common people.

Awkward Facts For Protectionists.

The voluntary wage advances now embrace 685 firms and companies and 514,000 employees. This estimate does not include an unquestionably large number of smaller concerns which have increased the pay of their employees without public mention. "This demonstration of better times is quite unprecedented," says a contemporary with Republican leanings, "and is proving a most awkward fact for the politicians whose fortunes are embarked on a sea of calamity."—Philadelphia Record.

Results of Low Tariff.

Another shipment of pig iron to England is announced from Pennsylvania. Thus does the march of events go on making havoc of the more tariff issue.—Springfield Republican.

Of the 100,000 Persons

Who have lately visited Port Norfolk the general opinion is that it is the most desirable sites for homes and for investments on Norfolk harbor, and since the equipment of the electric railway it is eligible to the business men of the three cities. Pure air and water, large lots, low prices, low taxes, cheap living, schools, churches and all modern advantages, with the certainty of rapidly increasing values, due to general development and the location of the Southern railway terminus in vicinity. Vestibule electric cars each way every half hour. Call on M. W. Mason, Columbia building, Norfolk, Va.

Pitcher's Casteria.

NEEDS OF THE HOUR.

Harmony Is Growing in the Ranks of Democracy—Future Bright.

The fact that there is trifle less crowding among presidential candidates in Democratic than Republican circles should give no anxiety to the rank and file of the national Democracy, says the Philadelphia Record. Lincoln's saying that it is easier to make brigadier generals than brigades is aptly applicable to the present political situation. What the Democracy most needs today is rational and honorable harmony in its rank and file. Such a feeling of union is growing rapidly throughout every section. Immateral and irrelevant issues are disappearing and the national Democracy is making ready for an active, earnest and intelligent campaign in 1896.

The Democratic party is the party of the people, and as a party of the people it knows that numbers with organization are invincible; without it powerless. Bosses and bossism, one man advocacy, hero worship of the individual—these must and will be got rid of.

Organization will set in with new and practical life, and the party will be equal to the battle of the next presidential campaign. Democracy isn't worrying about an absence of presidential candidates. The party of Jefferson, Jackson, Tilden and Cleveland may be relied upon to choose a safe, sound and honorable standard bearer at the next national convention. There need be no misgiving for the future. Harmony, union, organization—these are the pressing necessities of the hour.

Wages in the Woolen Industries.

The predictions of the tariff reformers that the removal of the duty on wool would not only add to the value of fleeces, but increase the trade of the manufacturers by broadening the lines of business, are amply justified by recent events. Wages in the woolen and worsted industry of Rhode Island were increased 7½ to 12 per cent this month, the second advance in that state within three months, and these advances were voluntary. Equal improvement in wages was experienced by all other New England woolen, worsted and cotton operatives, notably those at Lawrence, Lowell, Nashua and Manchester, along the Merrimac. These signs indicate anything but ruin to the woolgrowers and manufacturers.—Philadelphia Times.

Another Prediction That Failed.

The New York Times, in a survey of the commerce of the United States with foreign nations, brings out the remarkable fact that the imports of dutiable goods into the country were more by 15 per cent in the last 11 months of 1893, when the McKinley tariff was in operation, than they have been in the latest 11 months under the present tariff of which we have had official returns. Here is another prediction of injury from reduced duties exploded. Instead of being flooded with foreign goods, we are actually receiving less of these than under high protection.—Boston Herald.

Campaign Boodle For Harrison.

Mr. Benjamin Harrison will probably not lack for a fat campaign fund next year if he gets the Republican nomination. His very liberal friend and postmaster general, Mr. John Wauerman, is reported to have cleared \$4,000,000 as the profits from his big Philadelphia store in 1894, with a prospect of a little larger sum this year.—Charleston News and Courier.

He Travels in Bad Company.

Governor Morton might possibly have some chance of being nominated by the Republicans were he not so ardently supported by Platt. But people are beginning to be suspicious of him for the friends he has made.—Boston Globe.

Queen Margherita.

A recent graceful act of Queen Margherita is being duly chronicled. Once a year she pays a visit to the girls' mission schools in Rome. She arrived there one day recently in an open carriage, and following came two others filled to overflowing with masses of exquisite flowers. These she ordered should be driven into the school gardens. When all the pupils and teachers had assembled, she handed to each a lovely bouquet with the laughing word: "Last year you all presented me with flowers. It is quite time that I repaid myself."

Prove their Worth.

That is what thousands of people, speaking out of their own experience, say to their friends in regard to

Allcock's
Porous Plaster

the most marvelous external remedy known for all sorts of pains and aches in the back, limbs, chest or side.

Do Not Be Persuaded to accept a substitute. "Allcock's" has never been equalled.

Allcock's Cern Shields, Allcock's Bunion Shields, Have no equal as a relief and cure for corns and bunions.

Brandreth's Pills

stand at the front. The longer in use the stronger is their position.

IN BERKLEY.

Mr. W. B. Shafer, who has been in New York and Boston several weeks on business, has returned home.

Sergeant Lindsey had a force of men at work yesterday on Liberty and Twelfth streets abating the nuisance recently reported by the health officer. Master Frank West, a Virginian carrier, who has been spending his holidays in Newport News, has returned home.

Mr. Wm. Manning, a former resident of this place, who has been visiting his brother, Mr. Cleveland Manning, left for his home in Roanoke last night.

Mrs. Isabella Price, of Richmond, has arrived at the Ryland Institute. Miss Beesie Ferebee, of Camden N. C., who has been visiting her sister, Mrs. W. L. Berkley, has gone to Lawrenceville on a visit.

Two minor cases were before the Mayor yesterday, and were disposed of by his Honor. An impromptu reception was given to some of the former pupils who chanced to call yesterday afternoon at the Ryland Institute by Misses Burt and Cooke, the newly appointed elocution and music teachers. The recitations and solos by Miss Burt and the recitation by Miss Cooke clearly demonstrated the fact that they are fully qualified in every respect to perform the duties devolving upon them. Teachers and pupils are arriving daily and the school will open Wednesday, September 18th, with brightest prospect.

To BE ORDAINED.—At the Baptist preachers' meeting held yesterday morning a presbytery, composed of Rev. J. J. Hall, Rev. Dr. A. E. Owens, Rev. Dr. J. A. Speight and Rev. George W. Cox, was chosen to ordain Rev. W. B. Dailing to the ministry at the Baptist Church, in South Norfolk, next Sunday afternoon.

A large audience attended the service at Chestnut Street M. E. Church Sunday. The pulpit was occupied by the pastor, Rev. George H. Ray, D. D., in the morning, and at night by Rev. George H. Ray, Jr., who preached an able and eloquent sermon on "The Perpetuity of Christ's Kingdom."

Read the advertisement of postponed concert of Chesapeake Tribe, I. O. of R. M., and go and help a good cause. Two tramps were before Mayor McCoy yesterday, charged with breaking in the office of Mr. George Tilley, on Berkley avenue, Sunday night. They were committed for ten days on suspicious characters, and the authorities of Newport News notified to ascertain if they were the parties that broke jail there recently.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

PHOTOGRAPHED ON THE MIND

of any one who has visited our studio is the complete, varied and beautiful stock of photographic goods. Everything to help the photographer reach a high state of perfection; everything to facilitate the work of producing good plates, and beautiful photos can be had at prices that are a shadow of what is charged by some houses for the same goods. J. J. FARRER, 155 Main st., head of Old Market sq. sep16
